MISSION

Exposing the Danger

This is a time of disagreement and polarization in American politics caused by a clash of ideologies. It is imperative for Americans to communicate with each other about their political views and work together for the good of our country.

GENERAL TOPICS

THE GENETIC BASIS FOR LEFT AND RIGHT THINKING

- The left and right are genetically different
- Their brains are different
- Those differences determine their political morality

TRIBALISM IN THE UNITED STATES

- What caused it – hint, the extreme Left and right became tribal due to the ideology battle between left and right
- The left attacks, and the right defends itself.
- How can tribalism be ended (we know how to fix it but not how to get there)

THE LEFT'S CONTROL OF OUR SOCIETY'S COMMUNICATION SYSTEMS

- Universities, then traditional media, social media, and finally, the culture narrative
- Reasonable ideas from the right are suppressed
- This unbalanced morality is a danger to our republic

OTHER TOPICS:

- History of Politics
- Ancient political systems

THE PROGRESSIVE GENE, HOW GENETICS INFLUENCES THE MORALITY OF THE LEFT (2017, SIMMS BOOKS PUBLISHING)

Fuses the idea of a universal, genetically determined personal and social morality with the expression of that morality in the individual's political philosophy. Although this connection extends to and encompasses society as a whole, the book focuses on the far Left of the political spectrum where the Progressives reside. We look for answers to the following questions:

- Why does the Left believe what it does?
- What is the best way for the right to work with the Left?

TRIBALISM: THE CURSE OF 21ST CENTURY AMERICA (2019, SIMMS BOOKS PUBLISHING)

Analyzes the current tribal state in America. Several factors have contributed to this problem, including the left's search for a new ideology after the failure of socialism, the emergence of postmodernism as a philosophical system that divides, the erosion of moral traditions, and the polarization of politics. These forces, acting together, create instability and uncertainty in our political system. To fix this problem, left and right have to start talking again civilly so the country can move forward by consensus rather than by party

- What is the origin of American tribalism?
- What events or trends can help alleviate tribalism?
- What happens to the country if nothing is done?

THE CONSERVATIVE GENE, HOW GENETICS SHAPE THE COMPLEX MORALITY OF CONSERVATIVES (2021, SIMMS BOOKS PUBLISHING)

Describes the influence of genetics on the moral behavior of those on the right of the political spectrum. Conservatives possess a unique morality different from liberals and progressives, who seek to discard tradition and make rapid changes to society. Conservatives view rapid change as dangerous because it causes cultural disruption and involves pursuing impractical ideas. Conservatives value tradition and advocate a careful adoption of change based on maintaining the institutions that protect society against chaos.

- What is the conservative ideology?
- Why don't conservatives compromise their beliefs?
- What are the criticisms of conservatism?

TWILIGHT OF THE AMERICAN EXPERIMENT, WITHOUT MORAL BALANCE OUR REPUBLIC WILL FALL (2023, SIMMS BOOKS PUBLISHING)

Recounts how the Left dominates America's culture and communication systems. The United States became a new nation modeled on freedom of speech and a person's right to express opinions. The balance between different views has become disrupted by the political Left, who wish to impose their ideology on the rest of the country. The Left controls academia, the cultural narrative, traditional media, and social media and uses them to paint American traditions as evil and corrupt.

If Americans fail to resist these attacks, the American experiment will end.

- What is the objective of the political left?
- What don't Republicans fight back?
- What is the outcome of left domination?
